**Let us build
the future
together**

The Estran school group was formed when several established catholic schools in the city of Brest decided to unite and pool their resources and strengths. It is both a learning community and a network of schools working together under the same guiding principles and inspirations.

The group aims for the true personal success of each student entrusted to its care.

Geographic mobility, knowledge of world affairs, openness to fruitful exchanges and the learning of foreign languages are part of guiding principles of our philosophy.

Therefore we are particularly pleased to be in contact with you.

P. Malvezin
Headmaster

Our technical and vocational school carries out many European and international projects. It was awarded the Erasmus University Charter in 2007. So our tourism students can get mobility grants for work placement in receptive agencies located in the UK, Spain, Italy etc...

Italy, Sicily and Slovenia are our partners in the Comenius school project "Gastronomy and tourism in our fishing ports" 2006-2008

We also organize work placements in Ireland, Scotland and Norway for the Bac Pro Restauration students, within the framework of Socrates Leonardo Mobility programme or with Telemarque regional grants....

...and in Germany, with the bilateral programme of the French - German Secretariat in Saarbrück

In 2007 our school was awarded the label «Lycée des Métiers» by the Ministry of Education :

HEALTH AND SOCIAL CARE STUDIES
